2. ENERGETICS

Our company has references in production of electrical energy with biomass, hydropower, nuclear energy, cogeneration, gas and petroleum. Our services for the production of thermal and electrical energy focus mostly on biomass, hydropower (small hydropower plants), cogeneration and gas.

In hydropower facilities we mostly provide measurement, process control and analytical services, whereby we specialise in hydromechanic equipment, drainage systems and crane systems. We are also the exclusive representative of Rittmeyer.
